Edgecore Networks at GITEX 2024

We are thrilled to extend a heartfelt invitation for you to visit Edgecore Networks at GITEX 2024, the biggest tech and startup show in the world, at Booth H21-02, Hall 21 at Dubai World Trade Centre.

Edgecore will be showcasing our latest range of products, including AI solutions, telecom solutions, wired and wireless enterprise solutions, and cloud solutions. We are eager to present to you a firsthand experience of our innovative offerings. Come visit us to explore how Edgecore takes your network to the next level, enabling the deployment of targeted coverage solutions across all locations, from edge to core, for data centers, SMBs, enterprises, and service providers.

You can look forward to the following highlights:

Total AI Solutions: Edgecore total AI solutions (EdgecoreAI) include Tomahawk4 and Tomahawk5 AI switches, AI servers, management switches, optics, and the operating system SONiC for network management.

Communication Service Provider Solutions: Edgecore offers CSP disaggregation solutions covering the complete network spectrum from broadband access, edge computing, and mobile networks to core routing.

Enterprise Wired and Wireless Solutions: From APs, enterprise and PoE switches, IoT gateways and cloud controllers, Edgecore provides comprehensive wired and wireless solutions to meet all your needs.

We firmly believe that your visit to our booth will be a rewarding experience and a catalyst for building mutually beneficial business relationships. Don't miss the chance to see our cutting-edge technologies and solutions at GITEX 2024!
